## KILLED BY THE WIND

Destructive Cyclone Visits Augustine, Alabama.

## LOSS OF LIFE AND PROPERTY.

Fifteen People Crushed to Death in Their Houses—Everything in the Path of the Storm Levelled—Terrible Rain Follows and Cotton, Corn and Other Crops Are Swept Away—Horses and Mules Killed.

SELMA, Ala., Aug. 17.—News has been received here from Augustine, Perry county, 14 miles from a telegraph station, that a terrible and most destructive cyclone swept over that place on Thursday last, leveling everything in its path. Twelve negroes and three white people were killed by houses falling in on them and 10 other persons were more or less injured. Twenty-four head of horses and mules were crushed to death by falling barns. The cyclone was followed by the heaviest rain that has fallen in that section in 15 years. Creeks and branches were converted into raging torrents, sweeping away cotton, corn and other crops, causing heavy losses to planters.

### At Florence.

FLORENCE, Ala., Aug. 17.—A terrific storm passed over Florence about 5 o'clock last evening. Great damage was done, but no fatalities have been reported. Two frame houses were blown down and awnings, chimneys and trees were wrecked. Trees were uprooted all over the town and on Court street large plate glass windows were broken by the fury of the wind. The storm came from the north, the storm cloud being met by another black cloud from the southwest. It is thought that considerable damage has been done in the country. The storm lasted less than 20 minutes and was accompanied by rain and hail.

### CRIMINAL CARELESSNESS.

Causes a Frightful Accident at an Early Morning Fire in Buffalo.

BUFFALO, Aug. 17.—Yesterday morning fire truck No. 10, with a crew consisting of Lieutenant Hedde and seven firemen, while responding to an alarm, collided with a trolley car at the corner of Wolz avenue and Sycamore street. The truck was stretched across the streetcar tracks when the trolley, which was running at full speed, struck it. Every fireman on the truck was injured. John F. Clark was pinned under the wrecks and crushed to death, his lungs being perforated by the rung of a ladder. Fred Jack went under the truck and received a concussion of the spine. He can not recover.

The other injuries are:

Lieutenant Hedde, hip bruised.  
Michael Rosenberger, left leg sprained and contusions.

John W. Brechtel, knee sprained.

Nicholas Noeller, hip bruised.

Anthony Manhard, bruised.

The motor car was smashed to pieces, but the motorman escaped with but slight injuries. Both the motorman and conductor of the car have been arrested. James Cowan, the motorman, says he heard the fire gong but did not stop up as he thought he could cross the street ahead of the truck.

### KILLED BY A NEGRO ROBBER.

Captain Blassingame, a Prominent Southern Citizen and Soldier.

SPARTANBURG, S. C., Aug. 17.—Captain John H. Blassingame, one of the oldest and most respected citizens of this city and state, was shot and killed yesterday afternoon by Chris Cannon, a negro boy. Captain Blassingame was alone at his sister's home, and Cannon entered the house for the purpose of robbery. Pistol shots were heard and the negro was seen running from the house. Captain Blassingame was found dead, shot twice through the heart. The negro was tracked to a house half a mile distant, where he was found shot through the chest. Two empty pistols found in the room indicate that both parties engaged in the shooting. The negro was taken to jail. His wound is not thought to be fatal. There is some talk of lynching, but the law will take its course. Captain Blassingame was a member of the most prominent families in the state, and a man respected and honored by all. He was a gallant Confederate soldier and before the war was a colonel in the United States army.

### INTOLERABLE HEAT.

The Mercury Registered the Extraordinary Heat of 108 in Texas.

DALLAS, Aug. 17.—The sun went down Saturday night upon a parched and withered earth, the mercury registering 105. It came up boiling hot Sunday morning and at 10 o'clock it scored 104; at 3 o'clock the mercury reached the unprecedented height of 108 degrees, the hottest weather on record for this section. Men panted like tired hounds from the chase, and sought in every way to avoid the intolerable heat. At 11 o'clock a little shower of rain with a gust of wind came upon the famished earth which sent the thermometer down to 98 and gave the people hope that this was the culminating day of the most extraordinary heat period ever experienced in Texas.

LONDON, Aug. 17.—A dispatch to The Times from Canoe says that the French consul and the Russian naval commander there have received instructions, identical in detail, ordering them to protect all of the Cretan Christians.

## FLYER AND FREIGHT

Collide in a Cut on the N. & O. S. W. Fatal to Five.

MARIETTA, O., Aug. 17.—Three men were killed, two fatally and one seriously hurt by a wreck at 8:30 o'clock Saturday morning near Torch station, on the Baltimore and Ohio Southwestern railroad.

The dead:

William H. Johnson, engineer of freight, Chillicothe, O.

Fred Hoffman, fireman of the freight, Athens, O.

Fred Rumpf, engineer of the flyer, Chillicothe, O.

Fatally injured:

Dick Thompson, fireman of the freight.

James Overly, brakeman of the freight.

A Loveland (O.) man, Postal Clerk Organ, was also hurt, but not seriously. An unknown child was slightly cut by flying glass.

Disobedience to orders on the part of the freight crew is said to have caused the accident.

The flyer was swooping along at a mile a minute, 25 minutes late, while the eastbound freight, No. 80, was roaring down Torch hill. As they swung into cut the trains met, before either could give warning of the threatened danger. Every car in the freight train was splintered into atoms.

The passenger train was not derailed owing to the fact that it was vestibuled throughout. Wreckage is piled in the cut 30 feet high. Most of the passengers were asleep and were hurled about the coach by the shock of the collision, but none were seriously injured. The coaches did not even leave the track, and the train was taken back to Belpre at once and the wounded cared for there. The body of Fireman Hoffman was recovered at last, pinned under the engine and crushed almost flat.

Rumpf is badly mashed, but Johnson was not mangled. The wives of the dead men have been rendered almost mad by the shock, and kind friends are with them doing what they can to comfort them.

Mrs. Rumpf was overcome and is in a serious condition. All of the men were well insured, and their families will be provided for.

The freight train was loaded with grain, and this, piled on the track, had to be slowly shoveled away and lifted to the top of the cut, delaying the clearing of the track a great deal.

The accident was caused by the neglect of Engineer W. H. Johnson to stop at Torch station until No. 1 got past.

## BUTCHER WEYLER

Compels General O'Chando's Nephew to Suicide—Huge Trouble Ahead.

KEY WEST, Aug. 17.—Captain-General Weyler and General O'Chando were the principals in a sensational affair which occurred shortly before the latter sailed for Spain. The death of General O'Chando's nephew, who was a lieutenant in the Spanish army, was the cause of the trouble.

There are ugly rumors in circulation reflecting on the young lieutenant, who was accused of conducting a treasonable correspondence with Maximino Gomez, the insurgent chief. When Weyler heard of the rumors he summoned the young man to the palace and questioned him. Weyler was apparently satisfied of the young man's guilt and told him if he did not commit suicide in 24 hours he would be court-martialed and shot.

The lieutenant left the palace, went to his room and in six hours was a corpse, having shot himself in the head. The affair was hushed and the Spanish official report said the young man died of yellow fever.

Shortly afterward General O'Chando arrived in Havana and learned the true story of his nephew's arrest. He was greatly enraged. He went to see Weyler at once. The meeting was most sensational.

O'Chando denounced Weyler in the bitterest terms, alleging that the lieutenant was guiltless and had been driven to his death. O'Chando termed Weyler a murderer and butcher and challenged him to a duel. The men drew swords and would have fought in the palace but for the interference of other officials.

Two days later General O'Chando sailed for Spain. He is greatly enraged and says he will make the affair public when he reaches Spain and demand Weyler's recall.

## BOTH CREWS SAVED.

Two Steamers Collided and Sank in the New St. Clair Channel.

DETROIT, Aug. 17.—Late Friday night the steamer Oceanica of the Lehigh Valley Transportation Company's fleet collided with propeller Willian Chisholm in the new channel in Lake St. Clair, and both were sunk.

The Oceanica was bound up, loaded with coal, from Buffalo to Chicago. The Chisholm was loaded with iron ore, and was bound from Marietta to Ohio ports. None of the crew were drowned, the men taking to the rigging until help arrived. The Oceanica was valued at \$80,000, the Chisholm at \$125,000.

The boats lie in 17 feet of water. It is thought that the accident was caused by a confusion of signals or lights.

## Fatal Fall From a Car.

WINSTON, N. C., Aug. 17.—Captain J. W. Goslen, editor of the Winston Republican, in stepping off a street car yesterday afternoon fell and his head struck the macadamized pavement, producing concussion of the brain and causing death in two hours after the accident. Deceased was 55 years old. He was a gallant soldier during the war and was promoted to captain of his company.

## CONSUL MULLIGAN'S REPORT.

The Government Extended by the Berlin Treaty Said to be a Dead Failure—An Injustice to the People of the United States and Grave Wrong to Those of the Islands—The King's Salary.

WASHINGTON, Aug. 17.—Consul General James H. Mulligan at Apia, Samoa, has made a voluminous report to the state department upon the conditions of the islands. A portion of the report is devoted to a review of the government of the islands by the United States, Great Britain and Germany, under the Berlin treaty. This treaty, Mr. Mulligan concludes, was a mistake, and to maintain it is to persist in a mistake.

"The present status," he says, "is an injustice to the people of the United States and a grave wrong to those of Samoa. If it be said that the treaty, so far as it concerns Samoa, has made matters no worse, it can be claimed with equal truth that it has failed to make them better in any particular. The admission of either postulate is to confess a failure."

As to the present government of Samoa, he says:

"A recognized and reigning king is dependent for his support on the voluntary contributions—the charity in fact of that portion of his family or tribe who adhere to him, while foreign officers of his government enjoy salaries from his revenues far in excess of the value of services performed. When a pittance of his nominal salary, long in arrears, is doled to him, it comes through the hands of a foreign official, who exercises his pleasure to pay or withhold; his lawful wife is in no sense queen, nor more entitled to consideration than half-clad women who file back and forth along the beaches. A struggling village, within and part of the kingdom, levies import and export duties on every dollar's worth of merchandise brought in or shipped out of the kingdom barely enough to pay the most meager expenses and the salaries of foreign officials.

"All the machinery of government—perhaps it is not too much to say of several governments—is in active operation within the precincts of this little town. The guns of great men-of-war, year in and year out, frown ominously upon the shore in support of the government and the law which does not exist within their effective range; and yet the offender within half a dozen miles of the seat of so many authorities defies the processes of the court and rebuffs the power of the invalidated government. In the midst of all white clad messengers of crown and consul fit to and fro along the blazing beach, the bearers of imposing envelopes, in which are covered the stately communications that round out the measures of time in this kindergarten of diplomacy.

"In the meantime, no clearing is made, no plantation is extended. The country, which at best, under its many disadvantages, needs all the stimulus of peace, all the security that government can assure, visibly languishes. There is no immigration, influx of capital or suggestion of enterprise. All wait for that undefined something—that change which is to come; wait as they have waited for 30 years; wait for the abrogation of the treaty, as they and their fathers waited for its coming."

Only a small part of the islands, he says, are under control of this government. Back from the shore and the town, the people do as they please.

The treaty made by three governments for the government of a third is not considered a success. The different forms of government sought to be brought together have been irreconcileable. There is too much friction. It is said that before any step can be taken, the three representatives must unite; then oftentimes reference must be made to powers on the other side of the globe.

There is a diversity of opinion, a conflict of interests and a clash of rights.

## A FARM OWNER'S SURPRISE.

Recent Rains Added Seven Acres to His Productive Land.

KOKOMO, Ind., Aug. 17.—Ex-County Recorder C. B. F. Clark visited his Carroll county farm yesterday, and was surprised to find it largely increased in value. The farm is on low, boggy ground. Last year the soil took fire and burned from May until Christmas, consuming seven acres of the productive land, leaving a depression of several feet in depth where the soil was consumed. On visiting the place yesterday, Mr. Clark found that the recent floods had washed the soil from neighboring farms on to his own, completely filling up the seven-acre pit with rich, loamy earth, though several acres of his corn were destroyed in the landslide. His farm is now worth as much as before the bog fire, and the neighbors have no redress unless they choose to haul their lost soil back in wagons.

ROCKFORD, Ills., Aug. 17.—Fire gutted the Woodruff Block on Seventh street early this morning, causing a loss of over \$100,000. L. Goldman, who conducted a department store, is the principal loser, his loss being estimated at \$55,000, with an insurance of \$35,000. The loss on building is \$40,000, partially insured. Half a dozen other smaller firms are also losers, and many poor families living in the second-story of the block lost everything they possessed, barely escaping with their lives in their night clothes.

## GERMAN CRISIS.

General Schellendorf, Minister of War, Retired—Other Changes in View.

BERLIN, Aug. 17.—The official announcement that General Broussart Von Schellendorf, the minister of war, had been relieved from office, and that he would be succeeded by General Von Gossler, startled the political world Saturday afternoon. The war minister's differences with the emperor regarding the long planned military trial reform has been the topic for discussion for a long time past, and it was known that unless his majesty acquiesced to General Von Schellendorf's views in the matter, which was also the view of the imperial chancellor, Prince Hohenlohe, both intended to resign.

But it was thought that the crisis would be tide over until after the czar's visit to Berlin, and it appears that the true reason which induced the emperor to abandon his projected trip to the Rhine provinces was not physical indisposition, but the fact that Prince Hohenlohe and General Von Schellendorf had intimated to his majesty that they would resign unless he agreed to the military trial reform, to which both ministers are publicly pledged, and which, owing to the influence of the emperor's private military cabinet, especially that of Gen. Von Hahnke, the aide-de-camp general, has been deferred repeatedly.

The interviews between Emperor William and Prince Hohenlohe on the subject were not satisfactory, as the chancellor insisted upon his point, also alleging that the burdens of office were more onerous than his age and health could bear. No definite understanding was reached, but it is understood that the matter was postponed, so far as Prince Hohenlohe is concerned, for the time being, and he will remain in office unless new and sudden complications arise.

The emperor's reason for objecting to the reform of the military trials is that he fears that publicity in the trials would weaken army discipline.

But General Von Schellendorf was also nettled on account of the recent removal of General Von Haberlin from the head of the central section of the general staff, to ordinary service, without his consent or advice.

## IMPROVEMENT IN MAPS.

New Issue Marks the Various Cessions From Other Governments.

WASHINGTON, Aug. 17.—The big new maps of the United States issued by the general land office for this year have just been issued. The result of the work of engraving and printing is one of the most complete and finely executed sets yet executed by the government. The feature is the division of the country into sections marking the various cessions and purchases from other governments. The tracts covered in the original 13 colonies and the Gadsden purchase, the Texas annexation, the cessions of Louisiana, Alaska, Mexico and Florida, are clearly set out for the first time. Commissioner Lamereaux is the originator of the idea. Only a limited number of maps have been issued, and a large saving over previous years is made in the contract price of 62 cents each to the government.

## LORD RUSSELL IN GOTHAM.

He Will Address the American Bar Association on International Law.

NEW YORK, Aug. 17.—Lord Russell of Killowen, lord chief justice of Great Britain, reached New York Saturday on board the Cunard line steamer Umbria, from Queenstown. Accompanying him are Lady Rensselaer and their daughters, and Sir Frank Lockwood and Lady Lockwood. Lord Russell comes to the United States on invitation of the American Bar association, before which he will deliver an address on Aug. 20, on "International Law."

Lord Russell and his party are the guests of Henry Villard, at his country place, Thorwood, in Dobbs Ferry. There the distinguished British jurist will meet Chief Justice Melville W. Fuller of the United States supreme court; Governor L. P. Morton of New York, and other notable Americans.

## BALLOON BURST

And Aeronaut Jacobs Was Dashed 200 Feet to His Death.

QUINCY, Ills., Aug. 17.—B. Frank Jacobs, an aeronaut, travelling with a circus, met with a horrible death here yesterday in the presence of his wife and young child and an assembled throng. He was having a balloon race at Baldwin park with Professor Dudley. His farm is now worth as much as before the bog fire, and the neighbors have no redress unless they choose to haul their lost soil back in wagons.

ROCKFORD, Ills., Aug. 17.—Fire gutted the Woodruff Block on Seventh street early this morning, causing a loss of over \$100,000. L. Goldman, who conducted a department store, is the principal loser, his loss being estimated at \$55,000, with an insurance of \$35,000. The loss on building is \$40,000, partially insured. Half a dozen other smaller firms are also losers, and many poor families living in the second-story of the block lost everything they possessed, barely escaping with their lives in their night clothes.

WASHINGTON, Aug. 17.—The battleship Indiana will be presented a magnificent silver service, contributed by the citizens of Indiana, at Tompkinsville, Staten Island, on Sept. 21. Acting Secretary McAdoo has approved that date, and Captain Evans will receive the service from the Indiana committee, which will visit Tompkinsville for the purpose of making the presentation.

### A WORD TO DEMOCRATS.

At the Mason County Democratic convention May 30th the following was adopted:

*Resolved*, That we declare it to be the duty of every Democrat and true American to submit to the will of the majority, and we pledge ourselves to support the nominees of the Chicago convention, without regard to ratio or standard.

Did you vote for this resolution? It was adopted unanimously.

The Courier-Journal fails to publish an account of the enthusiastic "sound money" convention held here Saturday. Strange that the Bolto-crats would let slip such an opportunity to boor their cause!

REPUBLICANS are anxious for Bryan to meet Bourke Cochran in a joint discussion of the financial question. Why don't they trot out Major McKinley? Bourke Cochran isn't in Bryan's class this time.

THE employees of every corporation that Hanna can control will be compelled to listen to long harangues on the beauties of the gold standard and given to understand that they have no right to an opinion of their own, says an exchange, but must do just as the gold bosses of Lombard street, London, or Wall street, New York, dictate. Verily, the laborer is approaching the condition of serfdom—of slavery. If he believes that the free coinage of silver would be best for him, he dare not say so. To express himself would be to jeopardize his position. What is becoming of our boasted liberty, when the laboring men dare not even have an opinion, much less express it?

### BRITISH INTERFERENCE.

In one of the campaign documents sent from the other side of the ocean is a hint," says the St. Louis Republic, "that the adoption of free silver coinage by the United States will be followed by a declaration of war on the part of Great Britain to protect the interests of English holders of American securities by forcing payment in gold."

The British campaigners for the gold standard will do a great service for the free silver cause if they succeed in convincing the American people that there is any thought among British statesmen of preventing the United States by force from remonetizing silver at any ratio. We should then be confronted in reality with the question of our right and power to regulate our finances and conduct our internal affairs without interference from abroad, and the result would be certain. The gold standard would be defeated by an overwhelming majority in every State in the Union.

"But of course the threat is absurd. Great Britain occasionally collects a debt and protects her money-lenders from adverse legislation at the cannon's mouth; but she is careful to select the right nation for such methods of collection and protection. She is not foolish enough to use them with a nation which would resent her interference and war with which would be costly and uncertain as to outcome. She would never risk war with the United States on the question of interference with the legislation of Congress.

"The fact is that the result of independent action by the United States for the remonetization of silver would be favorable to silver in Europe. The British financiers who have been opposed to it would probably turn about and favor silver legislation as a means of self-defense and of restoring the monetary equilibrium. The European bimetallists express the opinion that France and Germany would follow the United States and that a great change would be effected in British sentiment. The London Statist

declares that the impression created by silver free coinage would be very great and would probably result in the immediate opening up of the India mint to silver. It believes that Argentina and other smaller nations would follow the United States and a considerable rise in the price of silver would follow. This would cause a fall in the price of gold measured in commodities and the metals would thus be brought near together, paving the way to a sound bimetallic basis.

### FIRE INSURANCE.—Duley & Baldwin.

MR. JAMES SMITHERS died Sunday at his home in Washington, after a lingering illness, of consumption. He was a Justice of the Peace several years. The funeral occurs this afternoon at 4:30 o'clock, at residence.

A BIG burley negro named William Watts attempted to break into Mr. Albert Tolle's residence on Third street, Fifth ward, Saturday night about 1 o'clock. Mr. Oscar Gray, the Fifth ward barber, whose home adjoins Mr. Tolle's, went to the latter's assistance. Watts started to run, but Gray captured him, and then stood guard over him until Mr. Tolle hunted up Policeman Bland, who jailed Watts. In the Police Court this morning Watts was fined for being drunk and disorderly.

## That Tired Feeling

Makes you seem "all broken up," without life, ambition, energy or appetite. It is often the forerunner of serious illness, or the accompaniment of nervous troubles. It is a positive proof of thin, weak, impure blood; for, if the blood is rich, red, vitalized and vigorous, it imparts life and energy to every nerve, organ and tissue of the body. The necessity of taking Hood's Sarsaparilla for that tired feeling is therefore apparent to every one, and the good it will do you is equally beyond question. Remember

MR. HICKS in his predictions for August says that "warm weather will predominate, growing in heat until past the new moon on the 8th, it culminates in more storms about the 10th and 11th.

A breath of cooler air from the polar regions is likely to come over most parts from these reactionary movements.

About the 15th a warm wave will originate in the West, and during the 16th to 19th storms will touch all sections in their progress to the East. Great summer heat will prevail in all sections east of the actual storm areas, but this will break down as the storm passes east, leaving more pleasant weather behind."

## No Misrepresentation!

Our published statements are unvarnished facts. We invite our public to compare our advertisements with our merchandise at all times. Here are some August attractions for economy lovers:

**The Sun Umbrella.**—Wet or dry; it's as good for one as the other, and the price will quickly put your old umbrella in the closet, for you will buy one of these if you see them. Full twenty-six inches in size, made of fine Gloria silk, best Paragon frame, natural wood handles, and only 1.00.

**Scissors.**—Fine polished steel in six different sizes. Each pair put up in handsome kid sheath, metallic tipped. Choice of any size, 50c., and we think you will say they are worth double.

**That Skirt Binding.**—You have bought all kinds, but not one has proved absolutely satisfactory. Now the first time your skirt needs binding we want you to try Feder's Brush Skirt Protector. Its every thread is satisfactory. It does nothing but protect. Wouldn't know how to wear out. It's entirely new and supplies a need every woman has felt. Its cost is no greater than the old kinds, 9c. a yard, and its worth and wear is double.

**Remnants.**—A nice choice still in Wash Goods, Wools and Silks. Prices cut to half, sometimes less. Look them through. If you don't find what you want, there will be no improprieties to buy.

## THE "NATIONAL" DEMOCRATS.

Their Convention at the Court House Saturday in the Nature of a "Frost." Six Took Part.

The convention of the so-called "National" Democrats at the court house Saturday afternoon to select delegates to their approaching State convention in Louisville was in the nature of a "frost."

Only six or seven persons took part in it. They were Mr. Charles D. Pearce, who was formerly connected with the Louisville Courier-Journal but who moved back to Maysville some months ago, Mr. C. D. Russell, the chinaman, Mr. H. E. Pogue, of the Pogue Distillery Company, Mr. F. H. Clarke, of the James H. Rogers Company, Mr. Henry Chenoweth, of the Internal Revenue service, and Mr. Tom Hancock. Mr. Pogue and Mr. Clarke supported Bradley in the Gubernatorial race last fall.

Quite a number of Democrats and Republicans were on-lookers from the rear seats, and had some fun at the expense of those who participated in the proceedings.

The meeting was called to order at 2 o'clock by Mr. Pearce, who announced that he had been authorized to do so by the State Executive Committee. The object of the meeting was stated, and then on motion of Mr. Pogue, Mr. Russell was made Chairman, unanimously, and on motion of Mr. Chenoweth, Mr. Clarke was unanimously elected Secretary.

Mr. Pearce offered resolutions denouncing the Chicago platform and expressing the opinion that the election of Bryan and Sewall would prove disastrous to the country. The resolutions also named the following delegates to the approaching convention at Louisville: Thomas Downing, W. H. Robb, C. D. Russell, John B. Peters, John W. Boulden, B. A. Wallingford, W. J. Rees, F. H. Clarke, Robert Marshall, Hon. W. W. Baldwin, H. E. Pogue, W. E. Clift and Charles D. Pearce. All others in sympathy with the move were appointed alternates.

The resolutions as read were adopted and the convention then adjourned.

One of the delegates named has declared his intention of voting for Bryan, and at least one of the others says he expects to vote for McKinley.

## THE BOURBON BOYS.

The Paris Team Here This Afternoon and To-morrow—Maysville Broke Even at Dayton, Ohio.

The following is the standing of the clubs in the Blue Grass League:

Clubs.	Won.	Lost.	Pr.C.
Lexington.....	6	2	.750
Maysville.....	4	2	.667
Paris.....	3	3	.500
Mt. Sterling.....	1	7	.125

The Paris team came down this morning and will meet the Maysvilles this afternoon and to-morrow afternoon. Much depends on the result of these two games, and the contests will be among the liveliest seen on the local diamond this season. Paris has Rieman, Tenley, Heilman and Nye, all ex-Maysville players, and a big crowd will no doubt be out to see them. Newton will pitch for Maysville this afternoon and Best probably for Paris.

Maysville lost the first game at Dayton, O., by a score of 10 to 4. The boys won the second game, a ten-inning contest, by a score of 10 to 9. The Daytonians won the first game by lucky hitting, aided by bad fielding on the local's part.

DR. J. J. LETTON, of Bethel, Ky., and Miss Anna Cone will be married at the home of the bride, 113 East Fifth street. Tuesday at noon, Rev. I. P. Trotter officiating. The prospective groom is a son of Rev. James Letton, of the M. E. Church, South.

CHARLES RAMSEY, colored, was jailed Saturday night by Policeman Stockdale for attempting to assault Mollie Crawford, a white woman, on East Fourth street. Her cries brought parties to her assistance. In attempting to escape, Ramsey fell off of a wall at the "King House," dislocating or breaking one of his shoulders.

LIZZIE BANYON, colored, hired a horse and photon of Wells & Anderson Saturday evening to go to a fete near Lewisburg. While returning home the women claim the horse ran off and plunged over a bank. The animal was killed, the photon wrecked and the Banyon woman was cut and bruised about the face. The accident occurred near Mr. Jesse Calvert's home on Fleming pike.

PARIS Kentuckian: "At our depot Friday, for two hours, were pretty four months old twins, Mary and Martha, daughters of Elder J. A. Holton, of Lexington, and wife, nee Levy, of Marshall, Mo. They have one daughter several years old. The little twins have fullest suit of black hair ever seen on four months old babes. One of them, soon after birth, seemed twice insensible, but life was blown into it and it looks well."

**Pithy Political Points.**

The gold Democrats who propose leaving their own party and voting for McKinley, are not doing a very smart thing, to say the least, for McKinley is a silver man at heart, as all his former utterances on the subject prove.

Besides, the platform on which he is running is nothing more than a straddle of the money question, and when his record on other questions is considered, it would seem that he is everything but what a sincere, honest Democratic voter would care to swallow.

There has never been a plainer question before the American people at a Presidential election than the one that confronts them now. Stripped of all ambiguity, the question they are called upon to decide is whether or not a class of millionaires shall run the finances of the nation to suit themselves and add wealth to their own pockets, or whether the people shall direct these affairs in the interest of themselves and the great majority. We think the people will act with sense and moderation.

Mr. McKinley is the logical candidate of the classes, and us such can't possibly have any sympathy or anything in common with the masses; and as there is no man in the county of Mason or State of Kentucky who controls sufficient money to allow him a place in the classes, so it is the part of common sense for every man here to cast his vote in the direction of his interests.

A poor man would be as much advantaged by casting his vote for such an one as the Emperor of Russia as he will by voting for Mr. McKinley.

A MAN may dress as well as his own good judgment and the assistance of an artistic tailor may elect. He may take his "tubs" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the white of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation.

The quietest, surest, easiest way to cure this trouble is to take Dr. Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make them move on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless article.

**CINCINNATI TOBACCO MARKET.**

Prices Remain About the Same—Nothing Encouraging in the Outlook.

The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

We are unable to give any encouragement. The extreme hot weather has been the means of making the buyers a little careless in their bidding, but still the prices continue about the same, with the usual fluctuations. The sales have not been large, and the rejections very small, taking the market into consideration, but there appears to be a desire among the late shippers to dispose of their tobacco, as there is nothing to encourage holding, and a majority of the shippers believe that the present prices are fully as high as can be expected, and they do not want to carry and come into competition with the present growing crop.

The colorings are in good demand, and remain firm. Also, some good fancy tobacco has done well this week, and while the buyers seem anxious to increase their purchases on these classes, they neglect the inferior grades, and the dark red can be quoted very low, especially when there is any tinge of green in the leaf.

The French contract buyers are still taking the good clean tips at full prices, and while our buyers do not show any desire to purchase largely, we do not think the manufacturers are carrying any large stocks, and depend upon the breaks for their supply.

The reports from the country are very favorable now, and a large yield from the acreage is assured and with good curing weather a fine crop can be safely depended upon.

**PAINTERS STRIKE.**

**One Thousand Workmen Will Go Out in New York Today.**

NEW YORK, Aug. 17.—A general strike of painters has been ordered to take place today, which will include men in other trades who will quit work in sympathy with them in the shops of those contractors who are paying wages less than the union scale of \$3.50 for eight hours' work a day. It is said that nearly 1,000 workmen will go on a strike.

The New York painters' union is composed of five strong organizations, with an aggregate membership of 4,000. An executive board transacts all business for these unions and it was this board which recently issued the order for the strike.

Lewelling Would Be Senator.

WICHITA, Kan., Aug. 17.—Populist ex-Governor Lewelling, who was recently beaten by John W. Leedy on his race for the gubernatorial nomination, is being boomed for the race for the United States senatorship. There appears to have been an agreement entered into at Abilene whereby Leedy was to throw his support to Lewelling for the United States senate in consideration of a boost from the latter, and this agreement is the basis on which Lewelling will make his fight.

**Wife Murder and Suicide.**

NEW YORK, Aug. 17.—Alonzo Dinkelman, aged 50, shot and killed his wife and then committed suicide yesterday morning at his home in this city. Dinkelman was once in a good financial condition, but it is alleged that the treachery of business associates wrecked him. His wife had to convert their home into a boardinghouse. These misfortunes caused him to lose interest in life, and murder and suicide followed.

**Gladness Comes**

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constituted condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
